

SATAKE

SAVCO SALES PVT. LTD.

Paddy Husker : Model No HA10WA(3)-TA

DESCRIPTION

Satake Corporation's research and development efforts have been continuously focused on the goal of achieving the optimum performance, durability and sound design of rubber roll huskers.

Design features incorporated in the newly designed husker have resulted in an automatic husker, which establishes a new industry standard for efficiency at high feed rates.

The new husker offers the advantages of decreased breakage, greater aspiration efficiency and significantly improved rubber roll life.
