Rice Polisher : Model No KB75HS(2)-T

DESCRIPTION

The Satake Rice Polisher KB75HS(2)-T cleans the surface of rice, significantly enhancing the quality of finished products. The machine has achieved an excellent reputation in many countries for its high performance and for the innovations which have been incorporated over the past 30 years.

FEATURES:

- ✓ **Increased Capacity:**
Enhanced conveying and polishing systems provide capacity more than that of the KB40G TA, without increasing installation space.
- ✓ **Improves Rice Quality:**
Greater mist-adding capacity controls hce temperature during polishing and allows uniform removal of bran, producing brilliantly white shiny rice.
- ✓ **Easy Maintenance:**
A redesigned main body side cover greatly improves maintenance efficiency.
- ✓ **Easy Operation:**
The flow control dia is located on the upper part of the front panel for easy access and operation.
- ✓ **Broad Applicability:**
Use in combination with other Satake milling equipment to process a wide variety of rice, including GABA and parboiled rice.
